We've already covered Michael's Facebook page in our happy reviews (NOTE: See the video review on our Website and Facebook page as well- MDP) and in all the amazing, hilarious footage of our reception, in which we screamed the words to every song and danced so non-stop that friends laughed he might be trying to kill us. He found the perfect balance between the mainstream dance music we wanted, the songs that were our college hits, the songs our families would happily dance to, and the random requests we had ('Uh, Michael, can we get that song from Mulan? How about a techno version of Country Roads?'). We knew we were in great hands when a musically picky friend at dinner asked us for our playlist and we could honestly say we couldn't give it to him since Michael was the one curating everything. If you want a personalized set list without the smarmy wedding announcements and with a friendly, energetic, flexible and responsive DJ, look no further.

Wedding Music Charleston responded with the following comments:

I simply cannot be more blessed to have met Dylan and Ellen as well as each one of their friends and family. Tropical Storm Bonnie was seriously threatening (within minutes, literally) and that can truly be stressful for any wedding. Everyone was wonderfully positive and that made for a truly amazing event! The lesson is that magical events are a group effort. When everyone involved works hard and remains positive (guests and vendors alike) even when things look difficult, the magic explodes into beautiful memories for all. (Including the DJ :) PS- This Saturday past (June 25, 2016) was a similar experience in Edisto- gale force winds and sideways rain overturned tables and even threatened to dismantle the tent. The happy couple and each and every guest (as well a group of the most steadfast and dedicated vendors ever- including all of the members of my Wedding Band, "Baggage Claim") rolled up their sleeves and pulled up their boots and put it all back together again, just in time for an EPIC reception! The moral? Miracles happen when people care enough about others to go the extra mile. A few well-placed prayers help a lot too. :) BLESSINGS to you, Dylan and Ellen, for a long and glorious life together. I am sure that it will be a breeze for two as wonderful as you! "Hi, Michael,

Just wanted to let you know, we had such a great time and so much of that was thanks to you. Dylan and I were so nervous booking a DJ - we knew the music and dancing was our top priority, but unlike booking a band where you can listen to them perform, a DJ's talent for reading a crowd and picking good choices is more mysterious and harder to gauge. We trusted from your recommendations that we'd be in good hands, but had no idea how great. I knew you were gold when a DJ-critical friend leaned in at dinner to ask if he could have our playlist for his upcoming NYC wedding - and we got to say it was all you picking things. And then ALL.

THAT. DANCING. Friends have been telling us they kept expecting a lame-song break to go get a drink and then the hits just kept coming: "It was all rise!"
I don't know that I've been to a weepier, more emotional ceremony or a reception with more screaming singalongs, haha. Glad it got to be mine.
Thank you, thank you,- Ellen"

"Music was one of the most important details of planning my wedding. My Husband and I LOVE to dance and so do most of our family and friends which lead me to being very meticulous in my music and DJ selection. From the moment I contacted Michael, he was responsive, detailed, and focused on making every stage of music throughout the ceremony and reception my style. He played acoustic guitar and sang during the ceremony. It was perfect! A couple of the songs he learned specifically for the ceremony. Most importantly, my wedding day fell in the midst of a hurricane/4 day rainstorm/historical flooding. Despite most of my wedding being re planned and various vendors canceling due to weather, music was one thing I did not have to worry about. Michael was more than flexible with the constant changes and immediately agreed to play an hour later than planned due to the ceremony start time being delayed one hour. When the time came for the music to stop, everyone was having such a GREAT time that he played an extra 15 minutes! He kept the party going to the VERY LAST song! I had countless compliments on the music from my guests and all the credit goes to Michael! Book with Wedding Music Charleston NOW!!" Michael was absolutely amazing! I planned my wedding from California, and wasn't able to meet him in person prior to the event. He made me feel VERY comfortable booking/planning it all regardless! He is very detail oriented and made sure to think through each part of the ceremony (where he played acoustic guitar) and the reception (where he DJed). He thought of everything that was necessary for the event to run smoothly. The value he provides for the price is amazing (many of my friends paid twice the price for a DJ)! I would without a doubt recommend him for anyone who is in need of a DJ! Thank you for an amazing night!! Wedding: 11/07/2015 Services Used: Ceremony Music, DJ, Entertainer, Lighting and Sound

I can't say enough about Michael and Wedding Music Charleston! He was the DJ at my wedding at the Charleston Harbor Resort & Marina two weeks ago. My husband and I live in Colorado, so we were planning a destination wedding with little familiarity with the finer aspects of Charleston and wedding planning. He was so helpful! He's extremely detailed, which I totally appreciate as a project planner myself :) He had so much information to offer on his website, above and beyond the music details he would need for his piece of the event. He offered suggestions based on past experience, without being overbearing, but rather super helpful! The event itself was very laid back and everyone in attendance had just a fantastic time! We were a small group of 40, and he had everyone dancing the night away :) I would HIGHLY recommend Wedding Music Charleston to anyone planning a celebration in the area. Thank you SO much, Michael!!!

"We chose to use Michael as our DJ for both our ceremony and reception and we are so happy we did! Michael was great to work with from the get go, his pricing was affordable and he didn't give me a funny look when I said we wanted to stay away from standard wedding music and go with country, shag, and just happy laid back music. We didn't want that typical club atmosphere that most young couples want but we also didn't want to be on the opposite end of the spectrum dancing to the YMCA and Celebration all night either. All the other DJ's we met with would just try to convince me that that's kind of music guests like but it was just obvious they weren't comfortable outside their standard playlists. We knew we could find somebody who would be happy to give us the wedding we wanted and we definitely did. Guests loved him and he was able to please everyone, from my grandpa to our party friends from college. He also stuck to the do not play list I gave him and came and asked me directly what was ok if someone requested something that was a little iffy. He also worked well with my planner (she recommended him) to set up/break down so I didn't deal with any of that on the day of which was such a relief. If you're looking for someone who is professional and will listen to exactly what you want, don't hesitate to contact Wedding Music Charleston, they were absolutely worth every penny!"

"I am so happy that we decided to go with Michael and the rest of the Baggage Claim Band for our wedding. From the beginning of the planning process the service I received was amazing. I told Michael that I was in the beginning of the planning process and he was more than happy to provide additional vendor options based on successful weddings he had done in the past. We went to see the band twice before deciding to book them for our wedding. We absolutely loved the variety of music they played and were impressed with how he was able to get the crowd up and dancing along. Only a few months before the wedding we made a change in the time of the wedding (moved from a night wedding to an early daytime wedding). He was accommodating to our change even though they had a late night performance the night before. On the wedding day the band arrived and were beyond professional. I had provided very little direction to Michael and trusted his choices in music and his master of ceremony experience. He played music for our guest prior to the ceremony, played the wedding march music as well as music when we came back down the aisle. All were great! For the reception he was the Master of Ceremony, played in the band and provided DJ services. He did a great job at selecting music throughout the entire reception. The music was laid back at the beginning and by the end of the day we had the dance floor filled with people dancing (VERY hard to fill a dance floor at a day time, outdoor wedding). My dad kept asking him to stay longer to keep playing because everyone was having such a great time. I highly recommend Michael and the Baggage Claim Band!"

Michael and team were responsive and soothing from day one. We never felt nervous or confused about the process. When the day finally arrived we had extreme heat that changed plans. Michael worked with our changing timeline to avoid the heat. Having a DJ capability and band was truly the best of both worlds. They played to our guest taste and everyone raved about them. "We used Michael for my sister's wedding on May 16th for ceremony music, reception music, lights, and sound equipment for the officiant and toasts. He did everything exactly as we had laid out, and was extremely flexible. He arrived on time, got everything set up perfectly with almost no direction from anyone else (which is a huge help when you're running around trying to get ready). He had a live acoustic guitarist for the ceremony, and found a way to get the officiant a wireless microphone that picked up almost no background noise (we were on the beach and it was pretty windy). He kept things flowing throughout the night, making announcements and getting the guest where they needed to be. He offered plenty of guidance in terms of timing everything, but was completely flexible when we needed to move things around last minute. Overall, he was exceptional and everyone at the event agreed he did a fantastic job. I would definitely recommend him to anyone looking for a very dependable, friendly, and experienced DJ/Live performer."

Working with Wedding Music Charleston and Michael Peifer personally was an awesome experience. From the beginning when my wife and I called to get a quote and a better understanding of his services we were pleased. He was very professional and met with us multiple times that worked around our busy schedules. Michael even gave us advice on last minute planning for the wedding since we were our own wedding planners and at last minute accommodated us (with additional sound equipment) when we needed it most. The ceremony and reception went flawlessly with Michael performing live music and DJ'ing for us (Including traditional Indian dance music).

"I work for the rape crisis center People Against Rape. We were planning our annual "Take Back The Night" event and decided we wanted to have a DJ. After looking around for a while and not finding any promising options, we came across Wedding Music Charleston. From the start, Michael was great to work with. He promptly responded to all of my emails, answered any questions I had, and was very excited to be working for our cause. It became obvious that Michael is generous and compassionate, and that he cares about his community. We were thrilled to have found him. During the event, Michael was extremely professional. We had multiple entertainment groups and speakers, and he flawlessly made the transition from one act to the next. On top of that, he was a lot of fun to work with. While sexual assault is a serious topic, we still wanted our event to be joyous, and he was able to create that environment for us. Plus, despite the fact that we did not give Michael a play list, he was able to pick the perfect songs that were both appropriate and upbeat. The staff at PAR is grateful to have found such a great DJ, and we would highly recommend him to businesses/nonprofits/individuals who are in need of entertainment, whether that be a DJ or a band. I'm sure we will be coming back to Michael again next year for our event."

Michael Peifer was a lucky find for my wife and I, and looking back I wouldn't change a thing about how he performed as our wedding DJ. He was the perfect DJ for our wedding, because he kept things very simple and classy but he also inspired the party and got everyone up and dancing. He was also a very likable guy, easy to work with and had great instincts for the music we would like to hear. He played exactly the music we asked him to play, and I guess that's the bottom line for a wedding DJ. He really went far above what we expected and brought some expert guidance to our late-planning. Michael is a cool guy, and a great person and I was glad to have met him. I would absolutely recommend him to anyone in South Carolina looking for a wedding DJ.

I wanted to take a moment and say how happy I was with the service that my wife and I received from Michael at our wedding reception. I should preface my remarks with the facts that I have worked in the service industry and am now a military man. With this history, most customer services fall well short of my expectations. Michael's performance however, went above and beyond my high expectations. Starting with the preparation for our wedding, Michael's professionalism, and communication was top notch. After sending our requested play list, Michael ensured that he had all of the songs as well as the specific times and volume that we wanted them played. In short, in the hectic weeks leading up to our wedding, Michael worked out the little details in regards to the music so that we did not have to worry about it. It was very nice going to the reception knowing that the music was taken care of. Immediately upon our arrival at our reception it was apparent that Michael was in control. Michael quickly addressed my bride to ensure he had the right order and names of our bridal party as they were introduced. The flow of the reception went extremely smooth with Michael playing all of the music we wanted. As my wife and I made our rounds to our guests we both kept receiving compliments on how much they were enjoying the music and how much they appreciated the fact that they did not have to yell over the music. As pictures were being taken Michael kept the other guest entertained with low playing music and even anticipated some of our announcements before we requested them. I will always remember my wedding day and thanks to Michael's performance I will remember all of the good times I had at the reception. His price was exceptional for his services which were excellent. From his preparation all the way through his performance at the reception I give him my highest recommendation possible. Boy, are we lucky to have found Michael and Renate! They were incredibly easy to work with, detail oriented, and flexible. I found Michael to be very organized and played exactly what we specified when we specified it. Michael was always a phone call away and responded to emails quickly. And he even learned an acoustic version of the song that I wanted to walk down the aisle to, even though it was not on his playlist. And it was gorgeous! We can't thank you enough...you helped to make our day perfect!
